Question 2:

What is Resizing Images and Size Guide in Adobe Photoshop?

[ANSWER] Answer & Explanation:

When working with images for a website, you will need to resize your images to suit your particular purpose. Here is a basic guide that can help you decide on what is suitable. (The units used here are pixels, which are standard units across all computer platforms. The conversion between pixels and inches is roughly 1" = 72 pixels or 1cm = 28 pixels) To use this particular unit of measure you will need to adjust your preference settings by selecting Edit > Preferences > Units and Rulers and changing the units and rulers to measure in pixels. Type of picture Size in Pixels Background 1024 x 768 Standard personal picture of yourself for a personal website 200 x 200 Title bar e.g. Google title bar on the Google homepage 276 x 110 To resize a picture look on the menu bar and select Image > image size Workshop Committee of Technology Assist By Students
